

Avoid Foam

Foam may have high amounts of PFAS.

Rinse off foam after contact. Rinsing in the lake or river is okay.

Bathe or shower after the day's outdoor activities.

PFAS contaminated foam can:

- Be bright white
- Be lightweight
- Pile up like shaving cream
- Be sticky
- Blow inland

Touching the water is not a health concern. Enjoy swimming, boating, and fishing.

Do not allow pets to drink foamy water. Rinse pets with water after contact with foam to avoid swallowing PFAS that may be on their fur.

For more information, call MDHHS at 800-648-6942 or visit www.michigan.gov/PFASresponse.
